Re: Roof Replacement at 1110 Brickell Condo Association

Dear Mr. Jacobazzi,

I would like to express great satisfaction for the work performed by RCU at this location.

While the project was hampered by many rainy days you were able to complete it within a reasonable amount of time without a greater inconvenience for the building tenants.

It was a pleasure working with your crew, more specifically, with Mike Levine who did everything possible to accommodate the Association's needs, thus, avoiding complaints from the unit owners.

Please feel free to use my name for future references.

Sincerely,

Emilia Nabais
Association Community Manager
