September 7, 2007

To Whom It May Concern:

Pine Crest School has been associated with Roofing Concepts Unlimited since 1997. Over the years, they have replaced over 15 roofs on commercial and residential buildings. This would include built-up and cement tile.

I have found them to be reliable and fair priced but most of all, in a trade where you are relying on their word or the word of others, I have found them to be honest.

I would highly recommend them for any size roofing project. Please feel free to call me if you have any questions concerning their work.

Sincerely,

EUGENE E. WOJTYNEK

Director of Facilities

Pine Crest School
