To whom it may concern-

Our company, Roof Management Solutions is a commercial roofing and waterproofing consulting firm that has been serving South Florida since 1994. We are one of the largest consulting firms of our type in this area. We rely on quality contractors to install, repair and maintain the roofing assets of our clients. For the past 10 years, we have utilized Roofing Concepts on many of our projects. They bid aggressively to secure the work as most of our projects must be competitively bid. They consistently provide our clients with reasonable and competitive costs and thus, are awarded the projects on a consistent basis each year. This year alone they have be awarded four major projects totaling over three million dollars in work. The quality of workmanship, project management, and team effort they have displayed on each of our projects is impeccable and of the highest quality. The pride in the company is exhibited by each of their employees; from top management to laborer. RCU is capable of installing a wide range of roofing systems from built-ups and modifieds to metal and cement tile systems. They are approved as master craftsmen by most of the large roofing manufacturers. We have enjoyed our past association with this firm and gladly recommend using them for your roofing project.

Sincerely,

A handwritten signature in black ink that reads 'H. Lustgarten'.

Howard Lustgarten, co-owner
